The Emerald Small Business Network

Background

Emerald Community House has become aware of a gap in business services in Emerald with the movement of the Emerald Business Group to Eastern Dandenong Ranges Association. Some businesses wish to remain local and some small and micro businesses would like to network with other businesses and the local public without the fees associated with other, more formal business groups.

The Emerald Small Business Network aims to bridge a gap between micro / small business and larger business groups by providing an affordable alternative that enables these smaller businesses to promote their products and services to a smaller but more focussed audience.
